

01 UPDATED UTILITY RATES

UNDERSTANDING YOUR OCTOBER UTILITY BILL

Beginning with your October utility bill, updated rates are reflected for water, sewer, stormwater, refuse and recycling, and other services. The typical residential customer inside Tulsa city limits will see an approximately \$5.82 monthly increase, depending on water usage and elected services.

Residential Rate Changes:

- **Water:**
\$4.80 per 1,000 gallons used | Previous: \$4.57
- **Sewer:**
\$11 per 1,000 gallons water used | Previous: \$10.82
Personal usage rates recalculated every May based on historical water usage.
- **Stormwater:**
\$14.65 per month | Previous: \$13.69
- **Refuse & Recycling:**
Rates vary by elected service(s)/cart size. The primary refuse cart sizes each changed by less than \$1 per month.

These annual rate changes help operate, maintain, and replace Tulsa's water, sanitary sewer and stormwater systems and provide essential services to residents.

Water and sewer rates are considered annually by the Tulsa Metropolitan Utility Authority (TMUA), while the stormwater fee is considered by the Stormwater Drainage and Hazard Mitigation Advisory Board, and the refuse and recycling rates are considered by the Tulsa Authority for the Recovery of Energy Board (TARE). Approved rates are incorporated into the City's annual budget.

Rate changes are communicated throughout the summer as part of the annual budget process. The October bill reflects these updated rates.
